**T**HE PUBLISHERS take pleasure in presenting herewith the Twelfth Annual Edition of Henderson's Edmonton Directory. A work of this kind to be valuable, must, in all respects, be thoroughly reliable and up-to-date, fully conscious of these essentials, the publishers have taken every precaution to secure the accuracy of the information.

The Edition embraces the area of GREATER EDMONTON, comprising the territory of the city proper, South Edmonton (formerly Strathcona), North Edmonton, Calder, Beverly, and all adjoining subdivisions, suburbs and environs.

Attention is directed to the Miscellaneous Section in the front part of the volume, containing up-to-date statistics and information, much of which is not to be found elsewhere in print.

The Advertising Department, together with the Classified Directory, contains an alphabetical list of all articles made and sold in Edmonton and virtually makes it a city catalogue and forms a most complete buyer's guide.

The numerical system of street naming has been used, with the exception of the following streets: Jasper Ave., Howard Ave., McDougall Ave., Rice St., Queens Ave., Fraser Ave., Namayo Ave., Kinistino Ave., Syndicate Ave., First St., Victoria Ave., McKay Ave., Hardisty Ave., Whyte Ave., Main St., Stony Plain Road, St. Albert Road, Fort Road, Saskatchewan Drive and a few lesser known streets. Preceding the Street Directory is a ready reference guide showing the new and old street names, immediately followed by a second guide showing the old and new names. A complete list of subdivisions with locations is also included in the Street Section.

The removals and changes in the information this year have greatly exceeded any the publishers have previously had to contend with in the compilation of the Edmonton Directory and have, of necessity, entailed an enormous amount of extra work.

Today the whole world is engulfed in a mighty vortex of tribulation and strife, and Canada is nobly and loyally doing her part to uphold the cause of justice and the protection of the weak. Thousands of her citizens have already bravely shed their blood at the front, whilst tens of thousands more are impatiently awaiting their turn in the trenches. The departure of so many with the Canadian contingents, together with the immense numbers of British reserves and reserves of all the Allies, who have left to rejoin the Colors, have been a deep drain upon Edmonton, and it is therefore only natural that the Directory would reflect their loss and be smaller in consequence.

The Directory method of estimating a population is to multiply the individual names the Directory contains by a common multiple. The majority of these names has always been men, generally the heads of families. The present subnormal condition of the population of Edmonton as regards this class, alters to a considerable extent the results obtained by directory methods. The figures given below are more in the nature of a calculation. There is the same probability that the publishers have been as much conservative as liberal. It is clearly established that the male adult population of the City is less; in fact the decrease indicated is made up entirely of this class. The following figures are submitted as in the opinion of the publishers most nearly representing the present population of Edmonton. A complete census, only, can give definite and accurate figures.

## POPULATION OF EDMONTON, 60,682

The Publishers desire to thank their patrons and the general public for the courtesy extended, at all times, to their representatives, and to say that they fully appreciate the confidence which the business and professional men of Edmonton have always shown in their publications.

## PART I

# Greater Edmonton

Incorporated in 1901 when it had only about 3,000 inhabitants, the City of Edmonton has grown to such an extent as to now number over 70,000.

Edmonton is the chief distributing point in a territory of 200,000 square miles and has also a marvellously rich tributary country at the north and west.

Edmonton has taken time by the forelock in the matter of public parks and has 801 acres of land for this purpose.

The city is spreading out industrially, there are enormous coal beds directly under Edmonton, and thirty mines are worked. Industrial sites, at low rental, are leased by the city, which supplies power, light and water at cost. Apart from these mines, borings for natural gas are now being made and there seems no reason to doubt that this valuable asset to a city will be added to the already large number of important attributes which Edmonton enjoys.

Edmonton municipally owns and controls its water and lighting systems, as well as its street railway franchise, all being under the management of its commissioners. The telephone system belongs, also, to the city.

As the capital of the province and its educational centre, Edmonton has twenty excellent public schools, equipped with the most modern requirements and

follow approved educational lines from primary to collegiate grades. There are four good colleges for higher education—the University of Alberta, Robertson Presbyterian, the Oblate Fathers' College and Alberta College, with an excellent preparatory school in the Westward Ho! School for Boys. The Alberta School and McTavish Business College give complete business courses of instruction.

Three great railway systems centre on Edmonton—the Grand Trunk Pacific, the Canadian Pacific and the Canadian Northern. The Canadian Pacific has built a high level bridge and terminal facilities at a cost of \$2,500,000. The Grand Trunk Pacific has finished its latest hotel at a cost of \$2,000,000.

Edmonton is the chief central point of the Edmonton, Yukon and Pacific Railway, the Dunvegan, Peace River and British Columbia and the Alberta and Northwestern Railway. These roads are under construction.

Already the home market swallows up all that is locally produced and good prices are assured for those bringing their products into Edmonton. This industry could be better extended, as poultry and farm produce, vegetables and fruits have to be brought in from California and other places. No more profitable business could be indulged in than this.
